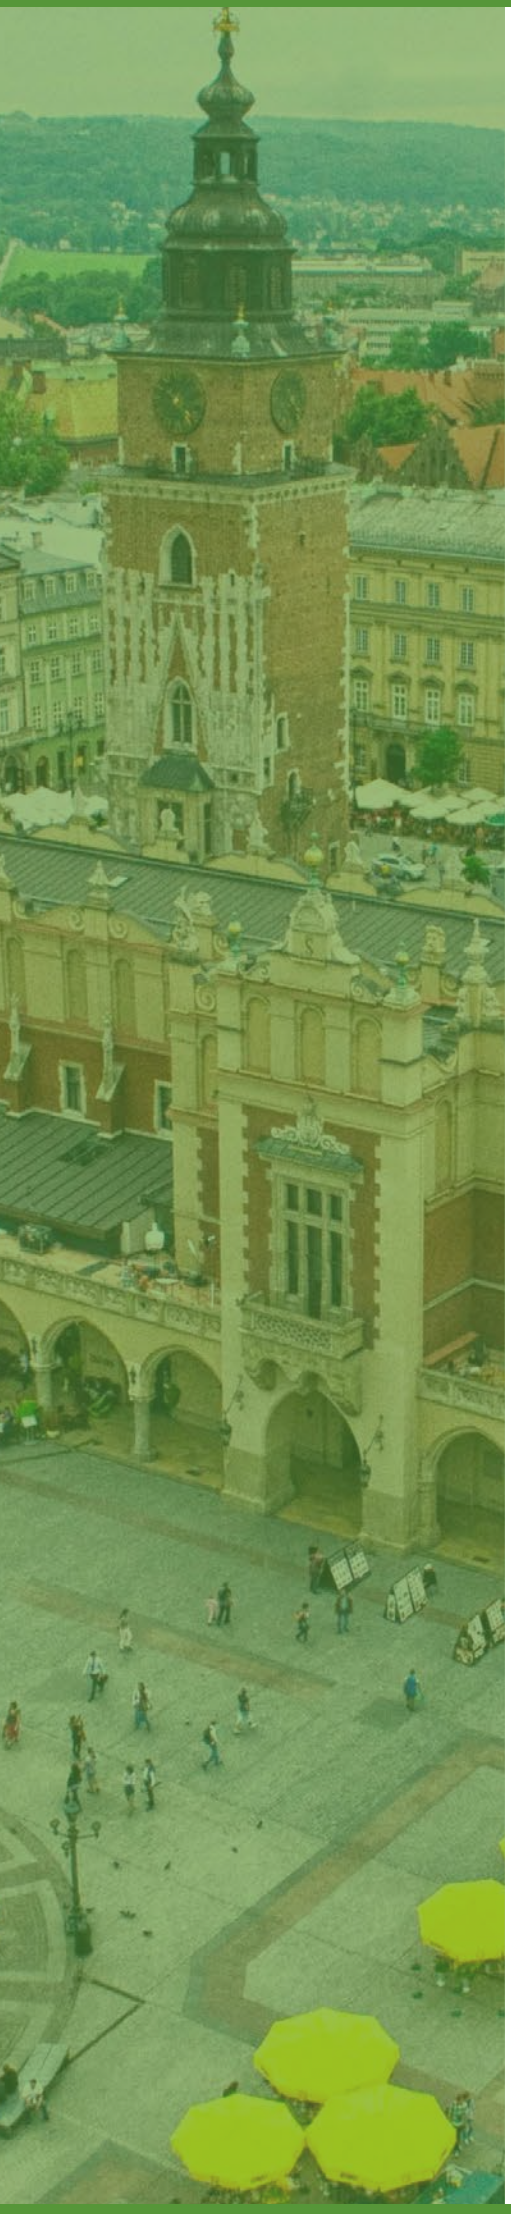
PRESS RELEASE

The progress of the “Transforming Graduate Education for Green and Sustainable Future” (T-GREEN) project co-financed within the framework of the EU Erasmus+ Program was discussed with the representatives of the Higher Education and Science Committee, and future actions were outlined.

NATIONAL ROADMAP OF EDUCATION FOR SUSTAINABLE DEVELOPMENT

The activities implemented in the framework of the T-GREEN project launched last year were presented during the working meeting in the Higher Education and Science Committee on January 24, 2024. The project consortium was represented by Mr Varazdat Hovhannisyan T-GREEN project coordinator and the Head of the Quality assurance and development centre of the National University of Architecture and Construction of Armenia, Mr Ruben Markosyan, vice-rector of the Eurasia International University, which is the co-coordinating member of the project consortium, the representatives of the National University of Architecture and Construction of Armenia Mrs Angin Martirosyan and Mrs Irina Vanyan, as well as the Head of the Department of Institutional and Program Expertise of the ANQA Mrs Varduhi Gyulazyan. The consortium representatives briefly presented the project's objectives, the planned activities, the works performed during the past months, and the institutions involved in the consortium.



T-GREEN PROJECT WORKSHOP AT KRAKOW JAGIELLONIAN UNIVERSITY

By EIU

>>> NEWS

The workshop, part of the T-GREEN “Transforming Graduate Education for Green and Sustainable Future” was held in Krakow in November 2023. The project launched this year is co-financed by the European Union’s Erasmus+ program.

The main goal of the T-GREEN project is to reform graduate education in Armenian universities to align with the EU Green Deal and sustainable development goals. This includes transitioning from traditional to innovative, green, and interdisciplinary curricula, promoting student mobility, and establishing collaborative degree implementation strategies.

T-GREEN PROJECT WORKSHOP

The workshop, which took place from November 21 to 24, 2023 at Jagiellonian University in Krakow, Poland, was attended by representatives from 17 universities and other organizations involved in the Project consortium. The representatives of the Krakow Jagiellonian University, specifically Prof. Radosław Rybkowski UJ Rector’s Deputy for Quality of Education, Prof. Wojciech Macyk, Dean Faculty of Chemistry and Dr. Marek Frankowics UJ Institutional Coordinator of the Project welcomed workshop participants, presented the main topics which have to be discussed during the activity as well as informed about the possibilities of having individual meetings and discussions with various UJ staff members and researchers.

The Armenian participants in the T-Green project include the National University of Architecture and Construction of Armenia (coordinator), Eurasia International University (co-coordinator), the Ministry of Education, Science, Culture and Sport of the Republic of Armenia, the National Center for Professional Education Quality Assurance, Yerevan State University, Armenian State University of Economics, French University of Armenia, National Polytechnic University of Armenia, Armenian National Agrarian University, Goris State University, Gavar State University, “Erasmus Student Network Yerevan” NGO, and “Bridge of Hope” NGO.

From green education to a green lifestyle

On July 10-14, the International Hellenic University (Greece) hosted the Erasmus+ T-GREEN “Transforming Graduate Education for Green and Sustainable Future” project funded by the EU. The event was attended by Varduhi Gyulazyan, head of ANQA’s Institutional and Programme Accreditation Division and Anahit Terteryan, a specialist from the same division.

With the green education policy at its core, the project’s implementation will enable HEIs to shift from traditional academic programmes to future-oriented education. This transformation will form green skills and green lifestyles among students.

During the workshop, group discussions were held on the following topics:

- need to revise the list of professions in RA: problems and potential solutions;
- full implementation of the credit system: obstacles at national and institutional levels, viable solutions;
- designing the “Education for Sustainable Development” road map.

The International Workshop at the IHU in Greece

The International Hellenic University in Greece will host the International Workshop of the Erasmus+ T-GREEN project titled “Transforming Graduate Education for Green and Sustainable Future.” The project is funded by the European Union.
